

Magnetic Rubber

Fork Cover

Model - IMRC

Description

Versatile Magnetic Rubber Fork Cover ideal for use when increased friction is needed between the forks of the forklift truck and the product to be lifted to prevent slippage of load. When picking up a finished product with the Magnetic Covers, the finished surface is protected from accidental damage.

Model	Cover Width (mm)	Cover Size Range – Length (mm)	Cover Size Range – Width (mm)	Approximate Thickness (mm)
IMRC-80/960/1400	80*	960-1300	80	7-9
