

Manual Telescopic Sleeves

Model - IMTF

Description

Manual Telescopic fork sleeves are a fast and economical method of handling occasional but infrequent loads. The smooth and simple operation allows the operator to adjust these sleeves safely and efficiently, to allow the loading and unloading of awkward pallet sizes on demand. They provide high levels of efficiency to any low to medium volume operation.

Model	Operating Range	Capacity @ 500 LC	Capacity @ 1500 LC	Weight (kg)	C of G (mm) Open / Closed		LLC (mm)
