

## Fork Sox Protectors

### Model – FORK SOX

### Description

A simple and cost-effective solution to aid load protection whilst handling fragile or finished product. These **forks sox** are easily fitted by sliding on to the fork blade and securing with a Velcro strap around the heel of the fork. These protective sleeves will help contribute to the reduction of damage to the product when being handled by the forklift forks, which in turn will have a dramatic effect on cost saving due to damage.

| Model             | Overall Length (mm) | Fork Section (mm) |
|-------------------|---------------------|-------------------|
| IRF2A100401000-FS | 1000                | 100 x 40          |
| IRF2A100401200-FS | 1200                | 100 x 40          |
| IRF3A100451200-FS | 1200                | 100 x 45          |
| IRF4A150601200-FS | 1200                | 150 x 60          |
