

Drum Lifting & Tilting Attachments

Speed up operations

A selection of Invicta fork mounted drum and wheelie bin lifters & tilters, designed to aid operations in which drums need moving / decanting and also used in operations such as waste handling for emptying bins.

IDL

DRUM LIFTER

The Fork Mounted Drum Lifter provides a simple yet effective method of moving steel drums in a safe and controlled manner which is aimed at the small volume drum user.

Regardless of access, the fork mounted drum lifter allows the safe discharge from steel and plastic drums with minimal ease within any confined space, with the option of crank handle or looped chain for low elevated level controlled discharge.

FORK MOUNTED RIM GRIP

The fully automatic rim grip is versatile and efficient for the movement of a wide variety of steel and plastic drums that are either open or closed topped. The hardened steel jaw lift from the rim of the drum thus allowing the safe movement of both new and damaged drums.

WHEELIE BIN LIFTER / TIPPER

The Fork Mounted Wheelie Bin Lifter is designed to safely lift, move and empty 660 & 1100 Litre Wheelie Bins equipped with side trunnions. With this type of waste management becoming more and more popular by the day, it is this attachment which can offer a solution to the associated logistical and time-keeping constraints. The attachment is operated via gearbox and endless chain for safe use from low level

WHEELIE BIN LIFTER / TIPPER

The fork mounted wheelie bin lifter is designed to safely lift, move and empty 90-240 litre wheelie bins. With this type of waste management becoming more and more popular by the day, this attachment can offer a solution to the associated logistical and time-keeping constraints. The winch is also equipped with a fail safe return mechanical stop to prevent the bin from swinging back once the handle is released.

Stay LOLER compliant with Thorough Examinations

Our service keeps the process simple

Lifting equipment and accessories, such as access platforms, must be inspected for safety every 6 months. Our Consolidated Fork Truck Services (CFTS) Inspector attends your site and leaves you with a report of thorough examination, including the next inspection date, as required under LOLER.
