

## Auto-Lok Tipping Skip Cover

Model – IATS-T/COVER

### Description

The **Auto-Lok Tipping Skip Cover** has been designed to shelter loads, in particular dry plasterboard, being transported using the Auto-Lok Tipping Skip. The Cover is the ideal solution for protecting the Skip from filling with water in the event of rain. The Cover is easily attachable and is reinforced in all 4 corners with an industrial strength bungee cord to ensure the load remains covered.
