

## Magnetic Pallet Stop

### Absorber

Model - IPSA

### Description

The **Magnetic Pallet Stop Absorber** is specifically designed for the safe collection and removal for Goods of varying sizes both at height and at floor level. The Pallet Stop Absorber is a versatile and adjustable piece of equipment to limit protrusion when collecting a smaller sized pallet, reducing fork overhang.

Model	Dimensions (d x h) mm	Weight (kg)	No. of Magnets	Fork Reduction (mm)
